Lakeview

by Janet Quillman, LTIA President

Hard to believe it is already March which means Spring is just a few weeks away and Summer is just around the corner. We would like to thank everyone that has paid their LTIA 2013 membership in this first quarter. We are still accepting new memberships, it's never too late to join.

We would also like to thank everyone who attended the Mardi Gras party to help us start the year off with a successful first fund raiser. There were about 65 people in attendance and many took advantage of the discounted rate for members and non-resident guests and joined that evening. Our members donated delicious appetizers for the event and enjoyed the music of Mike Mattingly. We had a best mask contest won by new lake lot owner and LTIA member Janell Wiesler for her expertly hand-made bedazzled mask and also a 50/50 raffle won by Jaimie Guerrero.

In addition to all of our good news we have some bad news to share. You may have already heard through the Tishomingo grapevine.....in the early morning hours after Mardi Gras the

				Calendar

clubhouse was vandalized. A window was broken out and the can from the drink cooler was taken. Most everyone knows if you've attended any of our events or dinners we keep a small sum of money in the can for people to make change when they purchase drinks. We are very thankful there was no serious damage, the perpetrator got what they came for and left through the front door! Thank you to Phil Overy who put a temporary barricade up and helped us with the police report and also to Jerry Haas and Annie for donating and installing a new window.

Moving on, the next dinner meeting will be March 10th. LTIA will be serving corned beef & cabbage for early St. Pat's. The April meeting will be on the 14th and the theme is Italian. We hope you will join us for dinner and bring a side to share.

The annual Trivia Night fund raiser is scheduled for Saturday, May 4th at 7:00. We fired the girl who came up with last year's questions so we hope you will give it a try.

For more information on any of the coming events or LTIA membership don't hesitate to call or e-mail any of the board members.

Fires Are Dangerous

Just a reminder

Burn permits only are valid until April 15, 2012. The Goldman Fire Department has adopted the Missouri Department of Natural Resources' rules and regulations for open burning of leaves and other materials. There is a fine issued when the rules are violated, but more importantly, this is a safety issue and we should all be concerned and adhere to the regulations at all times.

There have been several instances around the lake where these regulations have been violated. A couple of quick examples

- burning leaves at night
- fires left totally unattended
- no quickly available water supply
- burning too close to a house or parked boat or car
- burning non-acceptable items
- burning when it is too windy.

Please Be Careful

A small fire can become a huge fire with a sudden gust of wind leaving little or no time to get to water to extinguish. There is a definite need for the "50 feet from any structure" mandate, remember our Fire Department is miles away. Many houses have been totally lost to fire here at the lake.

Let's not have another loss to fire, especially one caused by open burning. We all can prevent such a happening by always following the rules and regulations endorsed by our fire department.

February at Lake Tish

photos by Janet Hirsch

Snow and ice accumulated Thursday February 21 and turned the lake into a sparkling winter scene.

LAKE RESIDENT HONORED

by John Dauernheim

On January 19th, 2013, long-time lake resident and VP/ Secretary of the LTPOA, Ray Lauer, was inducted into the Special Olympics of Missouri Hall of Fame.

Ray became involved with the Law Enforcement Torch Run for Special Olympics Missouri in the early 1990's, while he was Deputy Chief with the St. Louis Police Department. He eventually became the Chair of the LETR, a position which he held for 7 years. After his retirement in Oct. of 2003, he served on the Board of Directors for SOMO until 2011. During that time he served on the executive committee of the board as the secretary. He remains active in the LETR and on the St. Louis Over-the-Edge committee, as well as volunteering at the Polar Plunge.

He will continue to be huge fan in the future as he watches his grandson, Andy, who was born in 2008 with Down syndrome, as Andy becomes a Special Olympics Athlete.

We are very proud of Ray and glad he is part of our lake community.

You Can Help

Save Postage and Printing Costs

This newsletter is published every two months for Lake Tishomingo property owners. The printing cost is shared between the LTPOA and the LTIA. The postage is paid by the LTPOA.

You can help these organizations save some of the newsletter costs by switching to the full-color electronic edition of the newsletter. The current and past newsletters (back to 2003) are available at the website:

www.laketishomingo.com

Let us know if you are willing to switch to the electronic edition by sending an email message to

Be Careful

by John Dauernheim, LTPOA President

Be Careful with your Property

Any property owners storing their personal property such as, boats, cars, or trailers on someone else's property and without IDs can be towed away. Property owners need to ID their property and keep it on their own property

Also try to keep boats, trailers, & cars as far off the road as possible; so drivers and our snow removal equipment have no problems navigating the roads.

Don't be cheated

It has come to our attention that some people are paying more than their neighbors are for trash services. Both Bek-tel and Waste Management are charging about \$46 per quarter for trash pickup. If you are being charged more than that, contact your service and negotiate for a better price.

Join the Boat Patrol

When the lake fills up and the boating season starts we need folks to pilot the patrol boat. It will take only an hour or two per week and will give you an opportunity to meet and have friendly conversations with your fellow boaters. Contact me or Phil Overy to help out.

New maintenance building with two garage doors and large open bin for salt storage.

Pontoon Boat Trailer

The LTPOA pontoon boat trailer is parked and locked in the Community House parking lot. It can be used by any homeowner to launch a pontoon boat in the lake for a \$10 rental fee. Contact Butch Hopfer (636) 274-3791 or John Hunnicutt (636) 274-6126.

ATV Rules

- All riders must wear safety helmets.
- No more than two riders on an ATV.
- All ATVs must drive on the right side of the road and yield to all other traffic.
- All ATVs must obey the 20 mph speed limit.
- All ATVs must remain off other people's property.
- No riding on dam or lakefront area allowed.
- No ATVs from outside the lake are allowed on lake roads or lake property.
- All ATVs must be registered with the board and have lot numbers and lake identification stickers.
- No racing allowed anywhere on lake property.
- All ATVs must be equipped with adequate muffler systems
- All ATVs must have proper headlights and tail-lights to be run at night.
- No ATVs allowed on the lake when the lake is frozen.

If you observe anyone operating an ATV on private lots or off-road lake property you can report the trespassing to the Jefferson County Sheriff: (636) 797-5000.

Lawless

by Phil Overy, LTPOA Security Director

*What good are laws?
I consider them just a token,
easily to be broken.
Laws only get in my way.
Who says crime doesn't pay.
I don't give a damn for rules and regulations
when it's easier to give into my temptations.
Laws are for others to follow.
As for me, laws are only hollow.
I do whatever I want every day.
I never care what others say.
You ask what I contribute to the lake,
rather ask me what do I take.
There is nothing positive I want to teach
as long as I can be the community leach.
So welcome, neighbor, to the lake,
its laws I try hard to break.
Just leave me alone for goodness sake
so I can seal my inevitable fate.*

***Bullfight critics ranked in rows
crowd the enormous stadium full.
But only one there really knows,
and that is the one who fought the bull.***

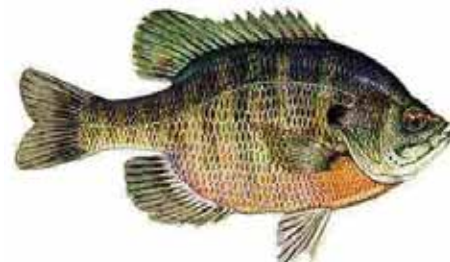

by Phil Overy, LTPOA Security Director

I was quite taken by this quotation when I heard it for the first time; President John F. Kennedy is supposed to have carried it in his wallet. It speaks, of course, the human tendency to criticize others in whose shoes we've not walked.

While the field of security law enforcement has been accorded relatively high public esteem, history has shown the cyclic and fickle nature of community support for its protectors. Given that, I wish to dedicate this letter to all law abiding citizens and security law enforcement officers who "Fight the Bull," and are still to often maligned for their efforts.

Call for Volunteers

The stocking of the lake with fish is supported solely by donations and the collection of aluminum cans. In order to continue stocking the lake, volunteers are needed to assist with the aluminum recycling on a regular basis. The commitment is for a few hours on a Saturday every other month or so. If you are able to assist, please contact Kevin Scheirich at (636) 274-9020.

Lake Tishomingo Property Owners Association

LTPOA Meeting Minutes January 8, 2013

Board Members Present: President John Dauernheim, Marilyn Meyer, Gordon Kassen, John Johnston, Phil Overy and Ray Lauer

Approved Absence: Kevin Seelbach

President Dauernheim called the meeting to order at 7:02 p.m. There were eight (8) people in attendance and all recited the Pledge of Allegiance to the flag.

Minutes of the Meeting of December 11, 2012: President Dauernheim asked that the minutes not be read since they were available on the web site and would be printed in the upcoming edition of the Newsletter. Marilyn Meyer seconded this motion. MOTION PASSED

Treasurer's Report:

Marilyn offered that the cash received amounted to \$3,867.28 and this included \$1,955.00 for assessments (2012-13), gate cards purchased amounting to \$90.00, payment by LTIA of \$1,786.75 for insurance costs, and interest of \$35.53.

Disbursements amounted to \$15,285.47, and included a partial payment to Jansen Brothers Construction (for the pole barn under construction) amounting to \$12,500.00, \$850.50 to Columbia Insurance (auto), Jefferson County Personal and Property taxes in the amount of \$987.58, sales office improvements amounting to \$429.48 and other items.

The checking account balance is \$275,873.48.

Ray made a motion to accept the treasurer's report and this was seconded by Phil. MOTION PASSED

Marilyn then presented information and asked approval for payment of incoming bills in the amount of \$14,764.03, and this included such items as gasoline for the truck, Bobcat repairs, snow plow repairs (labor and parts) postage stamps and payment to Morton Salt Company. Phil made a motion to approve these payments, and it was seconded by Gordon. MOTION PASSED

Gate:

Rich Hirsch reported for Russ Wilner. There are two problems with connecting to the gate control for making changes to the data base. One involves 2400 baud, which is an extremely slow connection speed, and the typical download takes at least 10 minutes. Second, the telephone/modem connection is erratic, often leading to dropped data, and there is a need to restart multiple times. This often makes it difficult to update the data base in a timely manner. And, this will become more of a problem when the weather warms and more people are visiting and using the gate.

Rich reported on the possible solutions.

1. – Carry a computer to the guard shack and connect directly to the gate database. This makes for a reliable connection and speedier download, but, it is inconvenient and uncomfortable.

2. – Install a computer with internet service at the guard shack. This computer can connect to the gate and then be controlled remotely from another computer.

The cost for the components is estimated to be: \$300 for a laptop computer, \$40 for a router, \$25 for cables and other needs. The total hardware cost would amount to about \$365.

Additionally, the monthly charge for the internet service would be about \$60.

With the computer and internet service we can also think about adding an internet-connected camera in the future, should the Board determine that need. No action was taken on this information. It was only presented for future consideration, should there be a need for upgrading our present gate configuration.

Security:

Phil reported there was only one incident that occurred, on December 18, when a car on South Lakeshore Drive left the road.

EMS and Sheriff's deputies responded and the female driver was transported for care.

Building:

John Johnston reported that on December 22, 2012 he drove and reviewed progress of outstanding building permits, 10 on the north side and 15 on the south side, and all were in order. Then he presented plans that had been submitted, as follows:

M19-20 ~ Barb and Ron Rohm – addition to a garage

M11B-12 ~ Daniel and Melissa Ewen – construction of a sea wall

B15-16 ~ Greg and Carla Fanger – construction of a sea wall

A motion was made by Phil and seconded by Ray to approve these requests. Motion Passed

Maintenance:

Jerry Birlew, with whom we have a contract for driving the snow plow and salting our roads, now has his own equipment for plowing the driveways of property owners. Anyone wishing to contract for this service is invited to call Jerry, at 314.707.7021.

Gordon reported on progress of construction of the pole barn in the maintenance area.

LTIA:

John Johnston, reporting for Julie, Treasurer of LTIA, reported a dinner meeting is planned for January, 13 at the Community House; a Mardi Gras event is also planned for February.

Finance – Parent's Club Representative – Garden Club – Water Testing – Dam: No reports

Web site:

Janet reported the current copy of the News Letter is available on the LTPOA web site. Also, the deadline for submission for information for the next issue of the News Letter is February 20, 2013.

Sewer Board:

Marilyn reported the Sewer Board will assume responsibility for payments of the electric and sewer bills for the sales office.

Old Business:

President Dauernheim discussed issues and problems regarding the LTPOA truck and asked Gordon to review options about possible replacement of the truck.

New Business:

President Dauernheim reported that Ken Jost, Rich Hirsch and he had visited Raintree and reviewed the boat ramp for that development's lake. Thereafter it was decided the ramp at our lake was in need of improvement. President Dauernheim then sought bids for this work, and Holloran Contracting had submitted the lower bid to extend the current ramp 18 ft. at a cost of \$2,500. Gordon made a motion to accept this bid, and it was seconded by John Johnston. Motion Passed

Siphon

Rich Hirsch then presented a review of the activity regarding the siphoning that allowed the lake to be lowered. The siphon was started on October 13, 2012 at 10:30 a.m. to lower the water level to facilitate the removal of silt and dock repairs (for those who wished to address those needs). At 11:30 a.m. on October 13, 2012 the lake level was 17.125" below full pool.

The siphon was stopped on November 23, 2012 and at that time the lake level was 72-3/8" (6' 3/8") below full pool. The lake fell 55.25 inches in 41 days, which is 1.34 inch drop per day.

Rich also reported the primary team to address this issue consisted of, besides himself, Rick Hannick and John Hindrichs.

LTPOA Meeting Minutes February 12, 2013

Board Members Present: President John Dauernheim, Marilyn Meyer, Gordon Kassen, John Johnston, Phil Overy, Kevin Seelbach and Ray Lauer

President Dauernheim called the meeting to order at 7:01 p.m. There were 12 property owners present and all recited the Pledge of Allegiance to the flag of the United States.

Minutes of the Meeting of January 8, 2013: The president asked that the reading of the minutes from the previous month's meeting not be read since they were available on the web site.

Gordon seconded the motion. MOTION PASSED

Treasurer's Report:

Marilyn provided the following details. Cash Inflow amounted to \$1,358.84, this money derived from Delinquent assessments (\$1,290.00), the sale of gate cards (\$35.00) and Interest from the checking account (\$33.84).

Disbursements amounted to \$15,998.39. Some of the payments were made to Jahnsen Brothers Construction (\$12,500) for the garage in the work area, snowplowing labor and oil (\$511.18), truck repair and parts (\$330.10), Morton Salt Company – road salt (\$1,130.71) and bounced assessment check (\$990.00). NOTE – This money has been reimbursed to the LTPOA. The remaining items in the Cash Outflow will be reflected in the upcoming issue of the Newsletter.

Delinquent assessments outstanding from 2011-12 relate to two empty houses. The same occurs with delinquent assessments outstanding from 2012-13.

Marilyn then sought approval for payment of bills she had received totaling \$44,838.29 and included payments to McLaran Excavating for silt removal, \$1,550 for repairs on the dam, insurance payments, Newsletter preparation, and additional payment to Jahnsen Brothers Construction. All items submitted will be listed in the upcoming issue of the Newsletter.

Phil made a motion to approve the Treasurer's report as well as the approval for payment of bills recently received. Gordon seconded the motion. MOTION PASSED

Marilyn then reported that a check in the amount of \$1,400 had been written on October 10, 2012, to pay income taxes to the IRS. She received notification the check had never been received and the IRS is demanding an additional \$300.00 as a result of the non-payment. She is following up on this matter in an effort to get resolution.

Gate:

Russ Wilner reported the message on the screen at the entrance has been changed and the message is now easier to understand. He said there have been some recent problems with the modem at the gate and he is working on a resolution. Also, he had some issues with additions and deletions to the gate database. A software update might be able correct this situation.

LTPOA Minutes continued from page 8

Thanks also is offered to John Dauernheim, John Johnston, Ken Jost, Rick Kardell, Kevin Scheirich and Kevin Seelbach. All of them were present when the siphoning was started.

Finally, President Dauernheim advised there is a need to install a safety fence (similar to that which has been installed on South Lakeshore Drive near the dam) in the area of the south side bridge. He has spoken to Matt Holloran about this need, and will follow up on this matter.

There being no further matters for discussion, a motion was made by Ray and seconded by John Johnston to adjourn the meeting. Meeting Adjourned at 7:55 p.m.

Prepared by Ray Lauer
Vice-President and Secretary

Security:

Phil reported there was a grass fire, for which Goldman fire fighters responded, near the entrance. It was determined the cause was a faulty ground switch. Also, during the night of February 9 there was a break in at the Community House. This followed an event sponsored by the LTIA celebrating Mardi Gras party. Entry was gained by breaking a window and the individual(s) left via the entrance door leading to the parking lot. An undetermined amount of money was taken. A Jefferson County Sheriff's Deputy responded on February 10, 2013 and prepared a report.

Gordon reported it appeared the dusk-to-dawn light near the area of the break in appeared to also have been damaged, and he will inspect that light regarding its repair.

Building:

Pat Niemeyer, resident on property at Lot A-35 presented a request for a building permit to replace the seawall. John Johnston reviewed the application and then advised he needed to visually inspect the site. He will then send an email to board members with his recommendation.

Maintenance:

Kevin provided an update on the garage completion. He stated there is a need to seal the concrete floor. Also, some plywood will be added to a wall for moisture prevention. There is a plan to construct a retaining wall outside the garage using currently available concrete blocks, to prevent erosion from the mini park area. Jackie Marschuetz and Chyree De Roode were present and discussed their thoughts regarding this latter matter.

Kevin and Gordon also addressed the issue of getting rock that is needed in the work area driveway, and the need for corrugated extensions for the downspouts. They will be working to meet these needs.

LTIA:

Julie Johnston reported on the success of the Mardi Gras party, and then elaborated about the burglary at the community house following that event. She also provided information about upcoming events that will be sponsored by LTIA. Julie also spoke about the new memberships that were gained during the Mardi Gras party.

Finance: Janet Hirsch had no report.

Web site:

Janet stated the deadline for articles for the next issue of the Newsletter is February 20, 2012.

Parents Club, Garden Club, Sewer Board, Water Testing, and Dam: There were no reports submitted.

Old Business:

President Dauernheim advised that the planned work, with a contract awarded to Holloran Contracting, to extend the boat ramp cannot be completed due to the water level having risen.

Phil read an additional five issues he will later present regarding revisions of security regulations. This issue will be addressed at a later meeting.

New Business:

Jerry Haas advised there is a tree stump on Lot I-59 that is blocking the drain at that site, and when rain occurs, the blockage causes water to stand on the road. He had spoken with someone about possibly removing the stump for a cost. Gordon stated he would investigate to determine if he could get the stump removed.

There being no further business, the meeting was adjourned at 7:39 p.m.

Docks to be Removed

There are several deteriorating docks lining the shore of the lake in several areas. These are becoming a danger to anyone near them. It is the responsibility of lake residents to maintain their docks.

These docks must be repaired by June 1, 2013 or they will be removed permanently.

If you do not repair or remove a deteriorating dock, the Board will have the dock removed and send the bill for removal to the property owner.

Docks in need of repair

A-8 Tim & Patricia Lane
A-17 Rita Kalin
M-36 David & Donna Cain

Docks in need of removal or replacement

F-49 Anthony Schmidt

If your dock is not repaired by the June 1, 2013 deadline and the lake must remove it for safety reasons you may not be able to rebuild your dock due to the building regulations requiring 35 feet between docks.

If you have information or questions about derelict docks contact John Dauernheim.

Lake Tishomingo Community Sewer Project

by Janet Hirsch

New Director

The directors of PWSD#13 reluctantly accepted the resignation of John Hindrichs from the board. John served on the board for four and one-half years and was an important member of the team. During the construction phase of the project he was out with the contractors watching and monitoring their work almost daily. After construction finished John took responsibility for obtaining a storage facility for the treatment plant equipment. He also supervised the installation of the emergency generator and automatic transfer switch. The board appreciates John's efforts and thanks him heartily for his dedicated service.

Replacing John Hindrichs on the board is John Johnston. The board welcomes John and is very glad that he agreed to accept the position of director.

Missouri One-Call

The District is now a part of the Missouri One-Call System. (The system was formerly known as "Dig Rite.")

Missouri law requires that any person making or beginning any excavation notify MOCS at least three but not more than ten working days in advance, except in the case of an emergency.

Placing a locate request is free and easy! Call 1-800-DIG-RITE (800-344-7483) or 811 or place your request online at <http://www.mo1call.com>. Before you start any excavation project at your Lake Tish residence you must notify Missouri One Call and have the sewer lines marked if near your excavation site.

Homeowners are encouraged to consider automatic payment of the sewer bill. The invoice postcards are issued the first of every month and payment is due on the tenth of that month. Payments not received by the 21st of the month are delinquent and subject to lien and prosecution.

The Billing & Payment Options brochure is available at the website. Visit :
