Lakeview

by Barb McGlynn, LTIA President

I hope everyone is back in the fall swing now that summer is over. It was too short for me, but I always enjoy the fall weather and colors while they last. The lake is so beautiful this time of year. I want to thank all the dock hosts who participated in the Boat Poker Run. We couldn't have had a successful event without your kind participation. We had a very good turnout. We sold 100 hands which will help with the LTIA funds.

The golf tournament was a success, but we really need to get more teams to be able to continue this long running annual event. Thanks to the good folks at House Springs Golf Course for accommodating our small group, but they really would like to see a bigger turnout to reserve our shot gun starts. You know you don't have to be a professional golfer for this tournament. This year we had a few teams of people who have never even swung a club and they did pretty good and had a great time as well. And you can also win a trophy for being the worst team!

The TAA Fish Fry was October 16 and we had a good turnout for that as well. Thanks to all the fisherman who participate in the Fish Tournaments and the cleaning of the fish. Lake Tishomingo fish is so good. Thanks to the good TAA fish frying guys and

<i>Calendar</i>

GUEST APPEARANCE**

the good dishes everyone brought to share, we all had our fill and then some. The weather was beautiful for the washer tournament and a good time was had by all.

In the future we are planning to have a Fall Festival, Christmas Party, and a New Year's Eve party, keep your eyes on the bulletin board at the entrance for more details. We are also planning another Trivia night so get your team(s) together. We haven't decided on the exact date yet, but it will be after the Holidays.

The LTIA appreciates the support of all who help and come to participate in the events.

The 2011 LTIA membership form is on page 3. Please sign up early and be a part of the Lake Tishomingo community.

Lake Tishomingo Property Owners Association

LTPOA News**Volunteer Needed**

Chris Townsend resigned from the LTPOA board due to time constraints. The board is asking for a volunteer to fill the empty position. Contact John Dauernheim or Janet Hirsch.

ATVs

We've been asked to print the ATV rules and emphasize the importance of driving responsibly on the lake roads. If you observe any vehicles racing, driving recklessly, or appearing to be under the influence of alcohol report them immediately to the Jefferson County Sheriff: (636) 797-5000.

Right of First Refusal

Property owners are reminded that restriction 9 obligates the seller to notify the LTPOA and the neighbors of the terms of the pending sale before selling any property within the subdivision. This is binding on every real estate transaction at Lake Tishomingo. Failure to comply can lead to lawsuits. The legality of this restriction has been upheld in Missouri courts.

From Lake Tishomingo Restrictions, Article 9: "No sale of said lot shall be consummated without giving at least fifteen days written notice to Grantor, and the owners of the two lots adjoining said lot on the sides, of the terms thereof; and the name of the prospective purchasers; and any of them shall have the right to buy said lot on such terms."

Trash Pickup

Beck-Tel Trash Service is offering Lake Tishomingo residents trash pickup service for \$15.30 per month -- if the entire subdivision signs up for the service. For more information, contact Valerie Silhavy, (636) 274-2254, sillyhavys@gmail.com.

**ATV Rules**

- All riders must wear safety helmets.
- No more than two riders on an ATV.
- All ATVs must drive on the right side of the road and yield to all other traffic.
- All ATVs must obey the 20 mph speed limit.
- All ATVs must remain off other people's property.
- No riding on dam or lakefront area allowed.
- No ATVs from outside the lake are allowed on lake roads or lake property.
- All ATVs must be registered with the board and have lot numbers and lake identification stickers.
- No racing allowed anywhere on lake property.
- All ATVs must be equipped with adequate muffler systems
- All ATVs must have proper headlights and tail-lights to be run at night.
- No ATVs allowed on the lake when the lake is frozen.

Violation of the ATV rules will carry a \$25 penalty.

If you observe anyone operating an ATV on private lots or off-road lake property you can report the trespassing to the Jefferson County Sheriff: (636) 797-5000.

LTPOA Meeting Minutes September 14, 2010

The meeting was called to order by Vice President John Dauernheim at 7:03 p.m. with the following board members present: John Dauernheim, Janet Hirsch, Ann Schatzman, Marilyn Meyer, and Renee Kittel. Absent were Chris Townsend and Matt Schweiss.

President's Report

President Townsend was not present at tonight's meeting. Motion to accept minutes was made by Marilyn Meyer and seconded by Janet Hirsch. Motion passed.

Treasurer's Report

Marilyn Meyer, Treasurer, reported for August. The Financial Report for August is listed separately. Motion to approve the Financial Report was made by Janet Hirsch and seconded by Ann Schatzman. Motion passed.

Marilyn presented the following bills for payment:

Columbia Insurance Quarterly	\$759.00
Door Controls (Gate Cards)	\$444.70
Portable Toilet	\$90.00
Grass Mowing (2)	\$610.00
Truck Parts & Repair	\$603.73
Gunther Salt (Mo sales tax)	\$175 (est)
Brittan's Gas	\$25.68
Certified Letters (Ann)	\$16.62
Sentry Security	\$1,276.00

Motion to approve bills was made by Janet Hirsch and seconded by Ann Schatzman. Motion passed.

Security

John Dauernheim reported the following for security:

- John Johnston reported that aluminum cans have been missing from the fishing drop-off area in the maintenance yard.
- Guards – Since taking over as security director, I have had different guards show up every weekend each day. They never have keys to enter guard house and I must go down each day to let them into the guard house. Contract should be up the end of Oct. and I cannot see any reason to renew this service. With the gate down 24/7 there is hardly any outside problems; most problems have been from lake residents residing inside the gate.

A motion was made by John Dauernheim to drop the security guard at the end of October at the end of the contract and was seconded by Janet Hirsch. Motion passed.

Maintenance

John Dauernheim reported the following for maintenance:

- After receiving the keys for the maintenance area last week, I went down and started the truck. "Work" had been done on the truck but the work was not completed. Brakes need service, gas tank was supposed to be full, but extremely low, and belt making noise.
- I will be calling for bids for electric service to the new maintenance building.

continues on next page

LTPOA Minutes continued from previous page

- Dumpster is needed to clean up maintenance area.

Finance Committee

Nothing to report.

Community Coordinator

Renee Kittel reported that on Halloween, Sunday, October 31, there will be tailgating and \$1/food and candy distribution down at the community house parking lot in the afternoon.

Building

John Dauernheim reported the following for building:

- Steven Fuller, K-82 – wants to rebuild pavilion, but has not submitted any building plans. Old pavilion is in disrepair and he wants to rebuild on same foundation.
- Daryl Frauenfelder, K-32&33 – submitted plans & permit to build a seawall. Dock has previously been approved.
- John Pedrolie, A-29&30 – submitted plans to build a new dock.
- Dan Dierzbicki, L-9-11 – submitted plot plans to build a garage and room addition.

Janet Hirsch made a motion to approve the above listed building projects (not Fuller). Motion was seconded by Marilyn Meyer. Motion passed.

Sewer Committee

Janet Hirsch reported that the lake will be lowered something in October or November, depending on the contractor, and it will be down to a maximum of 4ft. below the maximum level. Also, John Hindrichs volunteered to install the electrical service to the sales office just for the cost of materials.

Water Testing Nothing to report.

Old Business

•Janet Hirsch stated that 3 letters were sent out to the property owners who have not had the first 20ft. of their driveways paved. September 30 is the deadline. If the driveways are not paved or decommissioned, the LTPOA will pave the driveways. Need to get on the list for Meramec Paving.

•Janet Hirsch stated that there is major road damage around A-22 and will need to be repaired when the driveways are paved.

•Janet Hirsch also reported that she has been getting estimates on fencing for the path going down to the spillway. Matt Holloran can do the job with utility poles and heavy wire cables. His bid was \$2,740. The chain link estimates are approximately \$2,300-\$3,000. John Hindrichs suggested checking with the general contractor of the sewer project before starting any work on the fence. Janet made a motion to use Holloran to put up a fence along the path to the spillway. Motion seconded by Renee Kittel. Motion passed.

New Business

•The area on both sides of the bridge needs to be cleaned out when the lake is down – silt has accumulated and needs to be cleaned out. Contact Marler regarding the silt.

•Janet Hirsch stated that the concrete spillway should also be reinforced when the lake is down because it is leaking.

•New property owner Greg Geiger introduced himself, his wife, and daughter.

There being no further business, a motion was made by John Dauernheim and seconded by Marilyn Meyer to adjourn. Motion passed. The meeting concluded at 7:46 P.M.

Respectfully submitted,
Ann Schatzman, Secretary

**LTPOA Meeting Minutes October 12, 2010**

Present: John Dauernheim, Marilyn Meyer, Chris Townsend, and Janet Hirsch. Absent: Renee Kittel, Matt Schweiss and Ann Schatzman.

President's Message

President Chris Townsend submitted his resignation from the LTPOA Board of Directors. The Board agreed to accept the resignation effective as of the adjournment of this meeting.

Approval of Minutes

The minutes of the September 14 meeting were approved as posted on the website.

Treasurer's Report

Treasurer Meyer presented the monthly report and submitted bills for approval. All were approved.

Gate

Rich Hirsch reported that the sun visor on the gate callbox was hit by a big white truck on Monday, Sep 27 at 9 am. This damaged the callbox and card reader supports and popped open the callbox. Examination of the video indicated that it was an accident. Janet and Rich spent about 1.5 hrs on Sep 29 at the gate straightening the callbox and card reader supports.

Building Permit Applications Haas, I09-I17, seawall, Jost, A06-07, boatlift, Both applications approved.

Security The Sentry Security contract ends October 17.

Maintenance

Maintenance yard fence will be installed by Easter Fence Co. It will replace the old fence along the road, 78 feet, \$5500. John Dauernheim received two bids for the electrical installation on the maintenance building: \$4788, Wentzel; \$3522, Friedmeyer. The lowest bid for the asphalt work was \$3250 from Basic Asphalt.

Safety Fence

There is a new safety fence along the path that connects S Lake-shore Dr to the spillway at the dam. The LTPOA board felt that this fence was necessary. Many people like to walk around the lake and down to the dam and we didn't want any accidents to occur. Many

thanks go to Matt Holloran for his assistance with this project.

Sales Office and Guard Shack

The sales office has a new roof. The guard shack roof will be done soon. Fran Hovis presented the plan for remodeling the interior of the guard shack. The money has already been approved. The work will be done by Lakeside Gardeners volunteers.

Mulch Pile

The mulch pile will be moved from near the school bus stop to the grassy area adjacent to the south end of the Community House parking lot. Janet Hirsch will advise Matt Holloran of the new site.

Sewer Project

TGB Contracting began creating the staging area on the lakefront recreation area. They have reinforced the top of the dam with gravel for light truck traffic. The main construction access road is practically complete -- it comes into the area behind the dam from Regina Rd. The area behind the dam is being cleared and graded for the wastewater treatment plant construction. The resident engineer inspector is here every weekday and using the sales office.

A Historical Perspective Of Lake Tishomingo

~ The Early Days, Part 5 ~

by Ray Lauer

Moving on to March 1955, the Association members announced plans for the playground area had been revised and now it was suggested there would be a softball diamond, tennis court with backstops, swings, volley ball and badminton courts as well as pegs installed for horseshoes. All of this would be installed in the area below the office, in the parking area at the shallow end of the lake (where the present boat ramp is located). People with names familiar to us had donated a number of the items. Orban Lee gave the tennis net and Elmer Richards furnished a bat and ball. Pipes for posts to attach the fencing came from Ram Evett while Jack Dunphy donated the fittings. It was hoped everything could be in place for the summer months, and it was stressed the area selected for the facilities need not be a permanent location.

There was an announcement in this issue regarding tickets for the Big April Event --- a card party. It would be staged at the Clara Hempleman Hall, and you could buy a chance for a white elephant by forking over a quarter.

The really, really big news was that rainfall on February 19 brought the lake up another three and one-half feet. "Even the creek was running for days, almost a thing of the past." Then, the article noted, from its very lowest point the previous summer the lake had raised a total of about ten feet. (That no doubt was cause for great joy to those who bought property here with the hopes of enjoying water activities each summer.)

But, sadly, apparently many people didn't heed the warning about removing their boats as had been suggested several months earlier. The final sentence in this article reads, "A lot of boats are floating around after the rain and are not benefiting from the freezing water."

THE SNOOPER reported that Dick and Irene Ross, Lot M-69, were surprised one night when they couldn't get the local TV stations, but instead saw a program that was broadcast from somewhere in Mexico.

The newsworthy items discovered in the April 1955 issue of the *Tishomingo News* referred to the heavy rains

that caused the lake to come back up another couple of feet, "and back up where it was nearly two years ago." There was a problem that resulted from the rain, however. Because Missouri clay is very sticky stuff, according to information found in THE SNOOPER column, a number of people had their cars stuck at various locations around the lake. Portions of the roads had muddy spots, too.

It was also reported that the Elmer Richards were seen at the March meeting, even though Mrs. Richards was recovering from the flu. The Dunphys had attended the meeting, likewise, where square dancing took place, but "Jack wasn't doing any dancing". Also, Mr. and Mrs. Louis De Roode, owners of lot F-27, spent Sunday March 13 cleaning their lot. These are all names familiar to present day property owners here at the lake.

There were more donations of playground equipment, gifts from several property owners.

In May 1955 it was reported the recreation area just below the office was laid out and ready for use. It included space for softball, tennis, badminton and horseshoes. Swings had been set up for the youngsters. A softball team was being organized, but no additional information was made available who participated in those games.

A movie had been shown during the monthly Association meeting depicting scenes from two lake developments in the Kansas City area. The management of one lake dictated there should be cleanliness and strict enforcement of a building code, and that area reflected a beautiful shoreline, uncluttered yards and nice homes. At the other lake, the restrictions had been relaxed, resulting in "the shoreline being a hodge-podge of boat houses and all kinds of docks, with a general unkempt appearance." The management at Lake Tishomingo vowed the restrictions that had been placed in effect here when the subdivision was developed would be strictly enforced.

A huge news item was contained in the August 1955 issue of the paper, and it related to water activities. Actually, it was described as a problem. A lot owner decided to pull a skier behind his boat, and this upset some people. After witnessing the skier, a member of the board addressed a letter to the offender advising that the activity could only have occurred if the motor on the boat exceeded the horsepower limits. The person, unidentified in the article, who had been spied pulling the skier, sent a letter of response advising he would comply with the rules, but wanted to complain about the restriction.

According to the editor, a lengthy discussion took place at the monthly meeting regarding the desire of other property owners who believed skiing should be allowed and that the horsepower limits needed to be revised. The consensus was that amendments needed to be made to the water restrictions, keeping in mind that there should be minimal disturbances to others who utilized the lake for either swimming or fishing.

LTPOA Minutes continued from previous page

Lowering the Lake

The plan is to begin lowering the lake Nov 1 to about 4 ft from full pool. Last time the siphon was used, the rate of drop was about 1 ft/week. We're currently down about 12 inches, so it should take about 3 weeks.

LTIA

Barb Rohm reported that the LTIA membership dues for 2011 will be \$40. The LTIA needs financial and physical help maintaining the Community House. There will be a volunteer day Oct 30. Everyone is encouraged to pitch in.

Closing

The board thanked Chris Townsend for his 1-1/2 year of service to the LTPOA.

-- respectfully submitted by Janet Hirsch

Lake Tishomingo Community Sewer Project

by Janet Hirsch

The contractor for the sewer project, TGB Contracting, created the staging area on the lakefront recreation area. They have reinforced the top of the dam with gravel for light truck traffic. The main construction access road is complete -- it comes into the area behind the dam from Regina Rd. The area behind the dam has been cleared and graded for the wastewater treatment plant construction. The resident engineer inspector, Mike Larenson, is here every weekday.

Update on Treatment Plant area

1-inch minus cap has been placed on the roadway down the back side of dam.

2-inch clean rock has been placed on the north and east sides of the roadway around the treatment plant area.

TGB started breaking rock at the site of the recirculation tank. They expect to finish breaking the rock by October 25.

TGB completed test borings for the force mains October 22 and began installing the main lines along North Lakeshore Dr.

Remember: a homeowner's electrical circuit must be in place and certified when the contractor is ready to install the STEP tank at the residence. Otherwise, if the electrical service is not installed by that date, the homeowner will incur substantial expense to connect (connection is required by PWSD ordinance and Lake Tishomingo subdivision Restrictions).

Any problems with the location of lateral lines or tanks will be coordinated by the resident inspector, Mike Larenson. Mike is an employee of the district's engineer, Taylor Engineering and is headquartered in the sales office at the entrance to the subdivision. He can be contacted at (314) 402-0880.

Lowering the Lake

The plan is to begin lowering the lake Nov 1 to about 4 ft from full pool. Last time the siphon was used, the rate of drop was about 1 ft/week. We're currently down about 12 inches, so it should take about 3 weeks.

The Early Days, continued from page 7

Some expressed their feeling that if rules were not revised to allow for water skiing, they planned to sell their property and/or homes.

That meeting concluded after a motion was made and seconded that the board would give prompt consideration to adjusting, changing or correcting allowable water activities, and to be adopted at a "future time when conditions permit." (It was now time to enter into a new era for Lake Tishomingo property owners.)

There was a front-page article that detailed the expenditures for a two-year period by the board for the benefit of lot owners. Money was spent for such things as installing a community dock, printing and postage to mail the *Tishomingo News*, and \$80.55 for the used typewriter.

THE SNOOPER reported many property owners and visitors were at the Lake for the Fourth of July fireworks display from the dam, and that this was now going to be an annual event.

A group of owners, it was reported, toured the Anheuser Busch brewery and enjoyed the film on the Clydesdales. However, because of a snafu, food that had been promised was not made available after the tour, "but more than enough beer was consumed."

Finally, people around the lake had been subjected to abusive people who were on the water, so those here in the subdivision were admonished to be careful about what was being said since sound carries much too well on the lake. (To this day there are some inconsiderate people who use the

lake, being disruptive especially late at night causing excessive noise, be they on boats, on their own property clearing their land or doing other work, or participating with visitors in a loud and boisterous manner. Apparently they don't give a thought to how noise echoes across the water.)

Moving on to September 1955, we find an interesting article on the front page of the *Tishomingo News*. A column, entitled Dog Quarantine in Effect in County, relates to how a youngster was severely scratched on his back by a dog that had jumped on him as the boy was attempting to swim toward shore on a Sunday afternoon. Owners were asked to only allow their dogs to swim at the lake at times when it wasn't crowded.

The concluding paragraph in this column reads, "It's not wise to let your dog run loose in the county anyway. A dog quarantine is on with the Sheriff saying all dogs on the loose will be shot. Dog collars and tags make no difference. Just how far they'll (deputies) come into the lake area, we don't know, but better keep your dog at home."

Also, it was reported the lake entrance road had been oiled thanks to the contributions from a number of property owners and the management. The cost of this endeavor was not reported, but 52 names are recorded as being the donors. The names familiar to us, Orban Lee, Jack Dunphy and E.A. Richards, were among those who provided money for the supplies.
